Experience in the design or design review of wastewater treatment plant construction projects.</li> <li>2. Experience in the contract management for infrastructure projects under FIDIC Yellow Book Contract Conditions.</li> </ol> <p>Our company has extensive experience in the contract management for infrastructure projects funded by International Financial Institutions (IFIs), such as the World Bank and AFD. These projects utilize FIDIC contract conditions, including the FIDIC MDB Version (Multilateral Development Bank Harmonized Edition), which is widely recognized as part of the collaboration between FIDIC and IFIs. Considering the close alignment of these contract conditions with FIDIC principles, as well as the relatively minor differences between various FIDIC contract types, we would like to request the inclusion of experience under any FIDIC-based contract, or any kind of FIDIC contracts, particularly those used in IFI-funded projects, as acceptable for fulfilling the second criterion.</p>	Successfully completed work experience under the FIDIC Yellow Book for criterion ' <i>Experience in the contract management for infrastructure projects under FIDIC Yellow Book Contract Condition</i> ' as specified in the REoI will be evaluated.
